

Sittem Basic

A folding seat with balanced design lines guarantees comfort and freedom of movement thanks to its dimensions that optimise the personal space for each spectator.

The Basic Sittem Seat and its accessories are fixed to a rail that allows for a wide range of configurations. The various finishes of the seat and its accessories increase the seating's customisation capabilities.

SIZES AVAILABLE

420mm Seat Width

440mm Seat Width

480mm Seat Width

TECHNICAL CHARACTERISTICS

The seat tips up thanks to two springs.

Base and backrest manufactured by blow moulding in copolymer polypropylene and UV radiation stabilising additives. Side structures manufactured by injection moulding in glass fibre reinforced polyamide.

Brackets and rails made of S-235-JR or S-275-JR quality steel. The metal parts are joined using MIG welding with 1 mm thick carbon steel wire protected in a C-15 argon gas atmosphere.

Multipurpose system for fixing to the stands that allows adaptation to any geometry, anchoring both to the partition and to the footprint of the stands using 3 anchoring points, to form benches for up to 4 seats. Both the supports and the rails are made of steel, with a rail section of 60 x 40mm.

ACCREDITATIONS

Level 4 - Severe public use (highest level according to UNE-EN 13200 regulation).

UNE EN 12727 "Lined seats, trial methods and resistance and durability requirements for severe public use" - tested by IBV Institute.

Protection against UV light according to the UNE-EN 13200-4 standard.

Flame retardant upon demand.

Officially approved by FIBA (International Basketball Federation).

Arena Stadia Seating Ltd, Chambers Road, Hoyland, Barnsley, S74 0EZ, United Kingdom

COLOURS & FINISHES

Support structure - 1150, RAL 9005

Seat & Backrest Shells - We offer the manufacture of any colour in the RAL range that is technically feasible according to the project.

FINISHING SUPPORTS

Hot dip galvanized. Thickness 55-70 µm according to UNE-EN 1179 and UNE-EN ISO 1461.

Cataphoresis and polyester powder paint. Thickness 60-80µm. RAL 9005.

ACOUSTIC COVER (AVAILABLE FOR SITTEM BASIC 440mm)

Seat cover to improve sound absorption. Manufactured by injection moulding of polypropylene. It is fixed to the seat base using 4 screw points and covers a panel of sound-absorbing material. Sound absorption measurement according to UNE-EN ISO 354:2004.

OPTIONAL EXTRAS

Row & Seat Numbering - Available in PVC and aluminium. Adhesive or rivet numbering. Seat numbering dimensions: 24x44 mm.

Cup Holder - Attached to the armrest. General dimensions of 100x110x90 mm with a Ø75 mm compartment. Made of polypropylene.

Foldable Armrest - Intended for use with telescopic stands. Overall dimensions: 400 x 266 x 45mm. Armrest body made of 30% fibreglass-reinforced polyamide, with an upper cover made of copolymer polypropylene. The armrest is mounted on a steel frame and fixed to the rail. The assembly weighs 1.3kg. Mechanical resistance according to UNE-EN 12727.

Fixed Armrest - Fixed To The rail.
Overall dimensions of 360x250x60 mm.

Manufactured in 30% glass fiber-reinforced polyamide. Mechanical resistance according to UNE-EN 12727.

Side upholstery according to project, for indoor or outdoor use.

Upholstery colours - Wide range of colours are available.
